📇 Professional Summary

Motivated Full Stack Developer fresher with strong foundation in front-end and back-end web development. Proficient in building responsive web applications using modern technologies. Eager to contribute to challenging projects while continuously learning and growing in a collaborative environment.

🎓 Education

Masai School   2025
Full Stack Web Development Course

Galgotias University   2024
Bachelor of Technology in Computer Science and Engineering   Greater Noida
CGPA: 8.24

💼 Experience

Developer Virtual Internship   01/04/2024 –
Google (via AICTE-EduSkills) 🔗   01/06/2024
- Participated in simulated software development projects focusing on Android app development and cloud technologies
- Enhanced debugging and code optimization skills by resolving 20+ coding challenges and implementing best practices

Cyber Security Virtual Internship   01/01/2023 –
Cisco (via AICTE-EduSkills) 🔗   01/04/2023
- Learned cybersecurity fundamentals including threat detection, network security, and encryption strategies
- Gained proficiency in identifying and mitigating common security threats like phishing, malware, and DDoS attacks

🧠 Skills

Languages & Frameworks	Tools & Technologies	Concepts	Soft Skills
Java, JavaScript, HTML, CSS, React, Node.js, Express.js	MySQL, MongoDB, MS Excel	Data Structures & Algorithms, Object-Oriented Programming	Leadership, Team Collaboration, Problem-Solving, Adaptability.

📂 Projects

MoviesFlix with AI search 🔗   01/09/2025
- Built using React, CSS, and Firebase with GPT API integration for intelligent, natural language content discovery
- Features secure authentication, responsive Netflix-quality UI, and conversational search capabilities beyond traditional keyword matching

FOODIE - Online Food Ordering Website 🔗   01/05/2024
- Built a responsive food ordering platform with e-commerce functionality enabling users to browse menus, search items, and place orders seamlessly
- Implemented RESTful APIs for user authentication, cart management, and order tracking with MongoDB database integration
- Developed dynamic frontend interface with real-time cart updates and order status notifications

ATM Simulation System 🔗   01/09/2022
- Developed a console-based ATM system implementing core OOP principles including encapsulation, inheritance, and polymorphism
- Created secure login authentication system with functionalities for balance inquiry, cash withdrawal, deposit, and mini-statement

🏆 Academic and Extracurricular Achievements

Talentnext Certificate on Full Stack 🔗
Wipro

Fundamentals of Digital Marketing 🔗
Google Digital Garage

GeeksforGeeks DSA Score 🔗
Scored 1350+ in live coding contests demonstrating strong problem-solving abilities
